beams

Figure 1

Figure 2 is a schematic diagram of a device 10, which includes a substrate 20, a top layer 10, and a bottom layer 50. The device 10 is shown in a cross-sectional view, with the top layer 10 and bottom layer 50 being solid black regions. The substrate 20 is a white region between the top and bottom layers. The top layer 10 has a series of rectangular protrusions or fingers extending downwards into the substrate 20. The bottom layer 50 is a solid black region at the bottom of the device. The device 10 is shown in a cross-sectional view, with the top layer 10 and bottom layer 50 being solid black regions. The substrate 20 is a white region between the top and bottom layers. The top layer 10 has a series of rectangular protrusions or fingers extending downwards into the substrate 20. The bottom layer 50 is a solid black region at the bottom of the device.
